

**BALANCE OF PERFORMANCE FOR D Tracks:**

**Oschersleben**

These balance of performance measures are the result of the tests, research, analysis and projections performed by SRO Ltd and are the sole property of SRO Ltd. Other series promoters, race organisers and national sporting authorities cannot use all or part of them without SRO Ltd's prior written consent. Any contravention will result in a legal action.

## Balance of Performance FIA GT3 Specification

Remarks:

1.1 Additional weight must be installed in accordance with article 257A-4.3 – 2020

1.2 Technical drawings of air restrictors for 2013/2014/2015/2016/2017/2018/2019/2020 cars are registered with FIA. Only restrictors in compliance with this registration are allowed

1.3 Use of catalytic converter compulsory

1.4 Notes on boost control :

- Values are boost pressure ratio and need to be multiplied by the ambient pressure to get the Pboost limit.
- Competitors must adjust boost pressure relative to ambient pressure at each event
- Pboost limits linear interpolation approach
- Control of Pboost strategy see further.

1.5 The SRO Sporting Board is allowed to modify any parameter required to establish the balance of performance cfr the Sporting Regulations.

1.6 Cfr the Sporting Regulations : Engine reference data (iA, Lambda, Fuel inj, Cam In/Out, airbox pressure drop, etc) is the one collected during BOP tests and will be used for checks.

2. Control of Pboost strategy FIA (see further)

3. Pboost limits linear interpolation
