Accreditation portal for the Central European Rally now open until 26 September

Dear colleagues,

Accreditation for the Central European Rally (17 - 20 October 2024) is now open. We would be delighted to welcome you to this event.

The Central European Rally is the only round of the FIA World Rally Championship (WRC) that takes place in three countries and literally crosses borders: After the start in Prague and the second rally day in the Czech Republic, the rally heads to Germany and Austria on Saturday and Sunday.

Please note the following deadlines for national (AUT/DEU/CZE) and international media:

Start of the accreditation period (national and international media): 17/08/2024

End of the accreditation period (national media): 26/09/2024

End of the accreditation period (international media): 03/10/2024

All information on the accreditation procedure can be found in the media section of the event's official website at centraleuropeanrally.eu/accreditation.

Accreditation is only possible via the online system. If you have any further questions about accreditation, please contact our accreditation office:
